

Setting Up Application Environment

Create IBM Cloud Account

Date	03 November 2022
Team ID	PNT2022TMID19814
Project Name	Smart Fashion Recommender Application
Maximum Marks	2 Marks

The screenshot displays the IBM Cloud Dashboard interface. At the top, there's a navigation bar with 'Dashboard' and links to 'Edit dashboard', 'Upgrade account', and 'Create resource'. Below this, a 'For you' section features several cards: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Explore IBM Cloud Shell' (Try a command-driven approach for creating, developing, and deploying a web project), 'Create and deploy an application' (Browse our starter kits, and then select one to jump start the process to create and deploy your app), 'IBM Log Analysis with LogDNA' (Troubleshoot logs in real-time to diagnose issues and identify problems), 'IBM Cloud blog' (Educational, technical, and thought-leadership on cloud technologies and solutions), 'Hosting with bare metal servers' (Web hosting with IBM Cloud + free 20TB bandwidth (previously \$999 USD)), 'Deploy on Kubernetes' (With Kubernetes clusters, you can run, update, and scale containerized applications), and 'Get Started with' (Install the IBM C developer tools, include the latest CLI, verify the installation, and configure the environment). Each card includes a 'Getting started' or 'Recommended' button and a time estimate.

Below the 'For you' section, there are four main panels: 'News' (with links to 'TrustRadius Best Software: Five IBM Offerings to Make the List', 'Announcing IBM Cloud Pak for Network Automation Version 2.4', and 'No Prerequisites for IBM Cloud Certifications'), 'Recent support cases' (with a 'View all' link), 'Planned maintenance' (with a 'View all' link), and 'IBM Cloud status' (showing a world map and 'No issues' status). At the bottom, there are 'Usage' and 'User access' sections, both with 'View usage' and 'Manage users' links respectively.
